WEATHER OF CONCERN

NORTHERN CALIFORNIA

- Wet and windy weather is expected across the region through Thursday with periods of heavy snowfall in the mountains.
- Heavy mountain snows will impact the area through Friday morning with Blizzard Conditions at times.
- A pair of weather systems will move through the region spreading heavy snowfall accumulations to the Sierra Nevada and Southern Cascades.
- The winter storm currently moving through should wind down by late Wednesday morning with a brief lull ahead of the more impactful disturbance.
- The trailing system arriving Wednesday evening could produce several feet of snowfall accompanied by high winds leading to blizzard/whiteout conditions.
- Travel will be dangerous to nearly impossible, and is strongly discouraged.

SOUTHERN CALIFORNIA

- Periods of heavy snow and gusty winds are expected to develop in the mountains of Ventura and Los Angeles Counties excluding the Santa Monica Range and continue through late tonight.
- Snow levels will be around 5500 feet, then rising to between 6000 and 6500 feet tonight. Additional snow accumulations of 1 to 2 feet are expected above 6500 feet, with 6 to 12 inches between 5500 and 6500 feet.
- Flash Flood Watch for a portion of southwest California including the following - Orange County, Coastal Areas, Orange County Inland Areas, Riverside County Mountains, San Bernardino County Mountains, San Bernardino and Riverside County Valleys, The Inland Empire and Santa Ana Mountains and Foothills.
- Locally heavy rainfall of 1 to 2 inches is possible tonight. After a period of lighter precipitation Wednesday, even higher rainfall amounts are possible Wednesday night through Thursday

Key Points

01/15/19 - 01/21/19

Tuesday

- Next round of storms continues to move through the state with the main impacts over southern CA through Tuesday night
 - Greatest impact threat rest of day will be through 11 PM PST
 - Heavy snow over the mountains of southern CA will impact travel.
 - 1-2 feet above 6500 feet; 6-12 inches between 5500-6500 feet
 - Strong south to southeast winds will impact travel and may cause localized property damage and downed power lines. Winds will cause areas of blowing snow and reduced visibilities in the mountains. Wind gusts of 20-30 mph in the valleys, 40-50 in the foothills and mountains and 60-70 mph over the highest elevations.
 - Heavy rain with isolated thunderstorms may cause debris flows on recent burn scars, especially the Thomas, Whittier, Sherpa and Woolsey areas. Rock slides on canyon roads and areas of urban flooding are also possible.
 - Rainfall amounts are higher than Monday with a potentially higher threat of impacts
- Snow will impact travel over the Sierra

Key Points

01/15/19 - 01/21/19

Wednesday-Thursday

- The potentially most significant storm in this series will push through much of the state bringing the most widespread impacts this week
 - Greatest window of impacts Wednesday afternoon through Thursday morning
 - Heavy rain may cause debris flows on recent burn scars, rock slides on canyon roads and areas of urban flooding
 - Widespread rain amounts of 1-2 inches across the valleys and 2-5 inches over the foothills and mountains
 - Strong winds may cause travel impacts and areas of downed trees, power outages and property damage
 - South winds 25-35 mph with gusts 50-60 mph across central and northern CA; Gusts 70-100 mph over the ridge tops in the Sierra
 - Mountain travel will be significantly impacted with blizzard conditions over the Sierra
 - 2-5 feet over the Sierra and mountains of northern CA; locally higher amounts over the highest peaks of the Sierra

Key Points

01/15/19 - 01/21/19

Friday

- Another much weaker storm system will bring valley rain and mountain snow to far northern CA. Minor impacts to travel due to the snow.

Saturday

- Dry conditions across the state except for the northern coastal areas with no significant impacts

Sunday

- Next round of precipitation over northern CA. Locally heavy rain possible. Snow may impact travel over the Sierra.

Monday

- Dry conditions across the state except with no significant impacts
